Note: All colors shown are intended to show the approximate color of finish, choices, and ranges. **DO NOT** use this chart as a final selection for colors. Final colors are affected by site conditions and installation process. DuráVEL recommends making final selections from job specific samples made in the field.

TINT PACKS FOR DURÁVEL COATINGS

The products listed below are available in all the standard colors shown on the front unless marked otherwise.

E-TINT

Epoxy - E-100 and E-100 PLUS

Addition of tint packs is dependent on the mil thickness of the epoxy.
10 mils or thinner requires (2) E-TINT packs per 3 gallons of epoxy.
15 mils or thicker requires (1) E-TINT pack per 3 gallons of epoxy.

B-TINT

Polyurea - BASE-IC

Solid opaque coverage: 32 ounces of B-TINT per 3 gallons of BASE-IC.

PS-TINT

Polyaspartic - PS-80 and PS-90

Solid opaque coverage: 9 ounces PS-TINT per 1 gallon polyaspartic.

* Safety Colors Available for polyaspartic

USB-TINT

Solvent-Based Urethane - USB

Solid opaque coverage: 9 ounces USB-TINT per 1 gallon solvent urethane.

UWB-TINT

Water-Based Urethane - UWB-GLOSS and UWB-SATIN

Solid opaque coverage: 16 ounces UWB-TINT per 1.25-gallon kit OR 32 ounces per 2.5-gallon kit.
